

## **NEWS RELEASE**

### **HEC to participate in 2013 PTX Texas Powder Show in Houston**

HOUSTON (Sept. 30, 2013) -- Heumann Environmental Company (HEC) will be exhibiting at the 2013 PTX Texas Powder Show, October 15-16, at the Reliant Center in Houston.

The Powder & Bulk Solids Texas Conference offers information about dry processing, bulk material handling, storage, particle technology and related technologies to processing engineers, production engineers, plant managers, and operations managers who process, handle, package, transport, test and store dry particulates and bulk solids across a variety of industries.

HEC will be exhibiting at Booth#131. To attend, register online at [PTXTexas.com](http://PTXTexas.com) and use code BB for free admission to the expo hall.

HEC designs and builds custom-engineered, high-efficiency cyclones, in the most appropriate configurations, and offers an array of scrubber, and filter technology equipment solutions. In addition to equipment solutions, HEC provides key services to improve performance.

For more information about HEC, the conference and attendance, contact Ryan Bruner at HEC. Heumann Environmental's website is [www.heumannenviro.com](http://www.heumannenviro.com).
